PROFESSIONAL SUMMARY

Fresh graduate of Bachelor of Science in Information Technology (2026) with hands-on experience in building full-stack web applications through personal and client-based projects. Skilled in developing responsive user interfaces, backend systems, and real-time features. Familiar with modern development tools and deployment platforms. Eager to contribute to a team and continue growing as a developer.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Web Developer

Jan 2023 – Present

Full-Stack Web Developer (Personal & Client Projects)

- Developed and deployed multiple web applications including ordering systems, booking systems, and business websites using modern technologies.
- Built responsive user interfaces and implemented real-time features such as live updates and dashboards.
- Integrated backend services including authentication, databases, and APIs using Firebase and Node.js.
- Worked with clients to design and deliver clean, user-friendly, and functional websites based on requirements.
- Deployed applications using Vercel and managed version control using GitHub.

EDUCATION

Bachelor of Science in Information Technology

Aug 2023 – Jul 2026

University of Batangas

Bachelor of Science in Information Technology

Aug 2022 – Jun 2023

Lyceum of the Philippines University – Batangas

Bachelor of Science in Electrical Engineering

Aug 2021 – Jun 2022

Batangas State University – Alangilan

SKILLS

- **Languages:** JavaScript, TypeScript, PHP, Python, Java, C++
- **Frontend:** HTML, CSS, React, Next.js, Tailwind CSS, Bootstrap, Vite.js
- **Backend:** Node.js, Express, Laravel, RESTful APIs
- **Databases:** PostgreSQL, MySQL, MongoDB, Supabase
- **Tools:** Git, GitHub, Vercel, Figma, AWS, Google Cloud, Firebase

PROJECTS

DecoBlu USA Website

- Developed a modern business website for DecoBlu USA to showcase architectural surface solutions
- Focused on minimal and clean UI based on client requirements for better brand presentation
- Built responsive design for accessibility across devices
- Optimized layout for user engagement and smooth navigation
- Tools: React, Vite.js

Digiscribe Transcription Corp Website

- Developed a system that improved workflow by enabling real-time FTP file synchronization to the dashboard
- Built a flexible file explorer to manage and organize transcription files efficiently

- Created separate dashboards for admin and transcriptionists to support role-based access and tasks
- Improved productivity by centralizing file handling and monitoring in one system
- Tools: React, Vite.js, Firebase, Express.js, Vercel

Vicmar Homes Website

- Enhanced property management by implementing a real-time map showing availability status (available, reserved, sold)
- Built admin dashboard to manage listings, pricing, and property details efficiently
- Integrated chatbot and chat support to improve customer inquiries and engagement
- Designed a clean and responsive landing page to showcase properties effectively
- Tools: React, Vite.js, Firebase, Express.js, Vercel

UB FoodHub

- Improved ordering process by digitizing menu, checkout, and vouchers, reducing manual transactions and wait time for users
- Built admin dashboard with analytics to track orders, user activity, and system usage for better decision-making
- Implemented real-time updates for orders and comments to improve user interaction and responsiveness
- Designed responsive UI for accessibility across mobile and desktop devices
- Tools: React, Vite.js, Firebase, Node.js

RK Barbershop Booking System

- Streamlined booking and walk-in management, reducing scheduling conflicts and improving customer flow
- Developed real-time booking updates to ensure accurate availability and appointment tracking
- Integrated email notifications to keep users informed about bookings and updates
- Built admin dashboard to manage schedules, customers, and services efficiently
- Tools: React, Vite.js, Firebase, Node.js

Customizable Portfolio Website

- Built a user-friendly portfolio system allowing non-technical users to edit content easily
- Enabled one-click editing of text, images, and layout for fast customization
- Designed simple UI focused on accessibility and ease of use
- Hosted and deployed for fast and reliable access
- Tools: React, Vite.js, Firebase, Vercel

LTO Driving Mock Exam Guide

- Developed mock exam system to help users prepare for LTO driving license exams
- Implemented JSON-based editable quiz system for flexible content updates
- Created LMS-style exam interface with scoring and basic analytics
- Designed simple and accessible UI for users of all levels
- Tools: HTML, CSS, Firebase
